Candidate · independent recalculation performed; Microsoft Excel 365 acceptance pending.

10 — Consolidated Investment & Feasibility Report

08 — Shareholding & Equity Returns

← Executive Complete Report Print / PDF

M54 dividends	Dividends through exit
2,519,841 €	**32,981,521 €**

New investor IRR	New investor MOIC
7.70%	**2.69×**

JSCV	40.00%
JALS	10.00%
New investors	50.00%
New investor NPV	(9,604,777.39)
Exit Equity Value	103,625,929.31

15 blocks / eight new tickets. Dividends from M54 require debt repayment, reserves, profits and prior-12-month coverage ≥1.20×. Historical promoter costs and dates are insufficient for individual IRR.

Source: V06 engine · study values · EUR · 180 months · recorded parameters.

Candidate · independent recalculation performed; Microsoft Excel 365 acceptance pending.

10 — Consolidated Investment & Feasibility Report

09 — Sensitivities, Risks & Break-even

← Executive Complete Report Print / PDF

Active NPV	Reference NPV
(9,604,777) €	**(9,604,777) €**

Required return	Active peak debt
12.00%	**17,528,049 €**

ADR for NPV ≥ 0 at selected occupancy	No break-even in tested grid
Occupancy for NPV ≥ 0 at selected ADR	No break-even in tested grid
Minimum EBITDA among feasible tested cases	No break-even in tested grid

Matrix: 30 ADR EUR 150–250 / occupancy 50–75% cases, same 180M engine. Break-even is discrete, grid-constrained, without extrapolation. Active comparisons are not frozen-reference sensitivities.

Risks: undocumented capital and sales, VAT/corporate tax and incentives, overruns, MICE capacity, management contracts, funding and exit multiple.

Source: V06 engine · study values · EUR · 180 months · recorded parameters.

Candidate · independent recalculation performed; Microsoft Excel 365 acceptance pending.

10 — Consolidated Investment & Feasibility Report

10 — Investment Assessment & Key Decisions

← Executive Complete Report Print / PDF

Promoter: exit value requires validation	103,625,929.31
Investors: NPV at required return	(9,604,777.39)
Bank: maximum unfunded gap	0.00
Buyers: uncovered owner target	164,946.24
Hotel operator: forecast total fees	22,441,070.50

Promoter: historical return unavailable without costs and dates. Investors: compare IRR with active discount and NPV with zero. Bank: 1.30× DSCR is an internal reference, not an approved covenant.

Buyers: confirm price, contract, costs and tax; yield is not guaranteed. Operator: contract, execution budget and its own required-return threshold are missing for an attractiveness conclusion.

Decisions: formalise capital, sales and debt; validate tax and reserves; negotiate fees; evidence market and MICE assumptions; test natively in Excel before institutional approval.
