03 | Construction and repayment sources

Recipient: Instituição financeira — exemplo de negociação | Proposal Bank A | KK01-BANK-20261023T175546Z

Equity and receipts are model projections, not evidence of paid subscriptions or confirmed sales. Assumed primary equity in this scenario: 25,000,000 EUR.

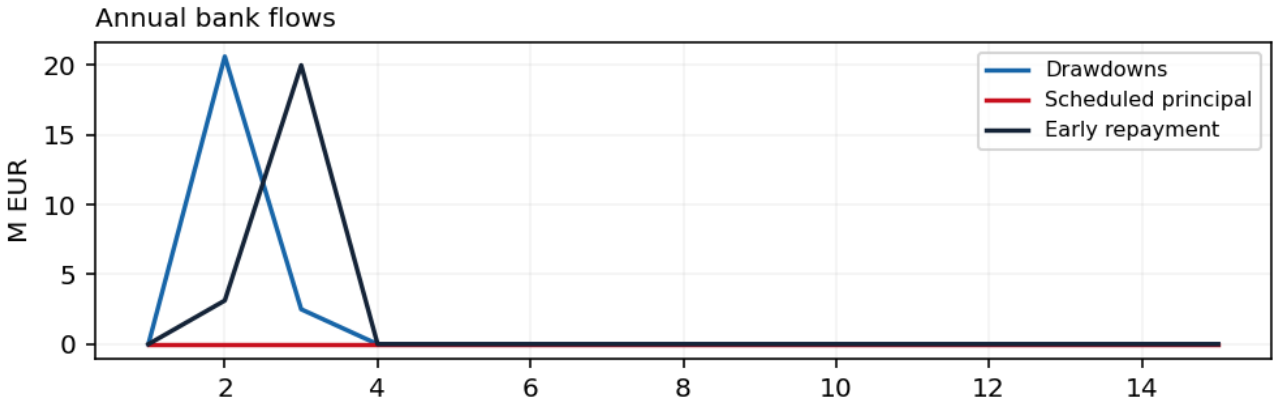

Year	CAPEX	Sales receipts	Equity
1	13,514,794 EUR	7,654,951 EUR	25,000,000 EUR

7	0 EUR	0 EUR	0 EUR
8	0 EUR	0 EUR	0 EUR

Financing depends on equity timing, property collections and operating cash. The non-revolving facility does not recycle repayments. Construction delays do not extend the bank availability period.
