01 — Executive Investment Summary

EFCC-20261022-01 · Active Scenario · 2026-10-22

Future CAPEX

63,168,000 €

Scenario KK capital

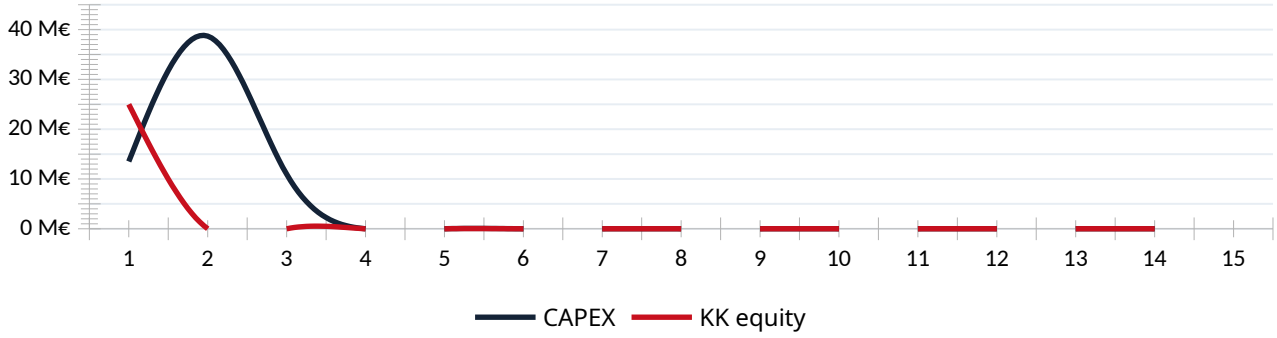

25,000,000 €

Investor IRR

5.8%

Investor MOIC

2.12×

Indicator / analysis basis	Value		
R4 Reference vs Active			
	Ref.	**Active**	**Delta**
Future CAPEX	63.17 M€	63.17 M€	–
Peak debt	17.53 M€	17.53 M€	–
Minimum reserve headroom	–	–	–
Planned dividends	26.96 M€	26.96 M€	–
New investor NPV	(12.74 M€)	(12.74 M€)	–
New investor IRR	5.8%	5.8%	0.0%

Finding: new investor NPV is negative at the required return.

Risks: contracts, equity funding, debt and market demand require evidence.

Implication: validate critical conditions and negotiate investment terms before deciding.

Simulated scenario · source: V06 financial engine · EUR · validate assumptions and evidence.

EFCC-20261022-01 · Active Scenario · 2026-10-22

New investor NPV

(12,742,848) €

New investor IRR

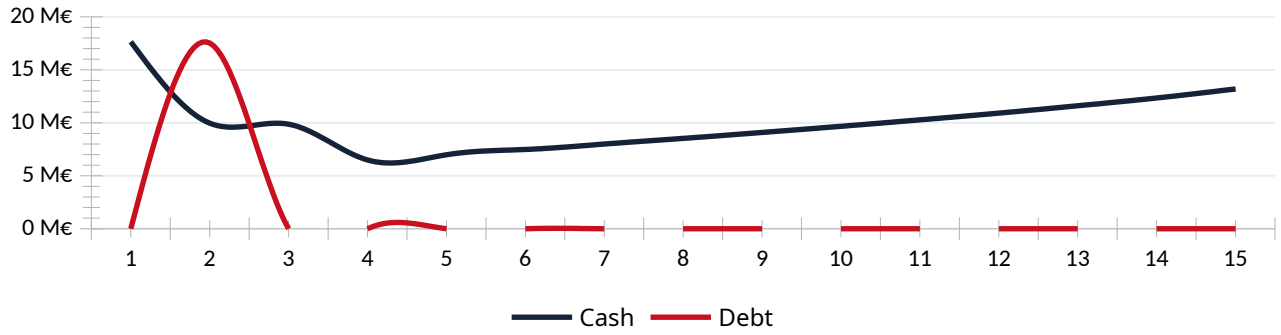

5.8%

New investor MOIC

2.12×

Project NPV

13,942,966 €

Indicator / analysis basis	Value
Developer · project NPV	13,942,966 €
Investors · equity NPV	(12,742,848) €
Lenders · cumulative funding gap	–
Buyers · uncovered target income	164,946 €
Operator · fees over horizon	16,570,484 €
Protected reserves · end	3,000,000 €

Finding: new investor NPV is negative at the required return.

Developer: confirm CAPEX, schedule and funding before commitments.
Investors: compare NPV/IRR with required return; negotiate terms before investing.
Lenders: validate security and covenants; Hotel DSCR is not an approved covenant.
Buyers: projected income depends on pool cash; it is not guaranteed rent.
Operator: confirm fees, obligations and reserves in the operating contract.
